

Aachener Membran Kolloquium

AMK at a Glance

Date	March 28 th - 29 th 2007
Conference Venue	Eurogress Aachen Europasaal und Foyer Monheimsallee 48 52062 Aachen, Germany www.eurogress-aachen.de
Preregistration	March 27 th 2007 at the Department of Chemical Engineering RWTH Aachen University Turmstr. 46 52056 Aachen, Germany
Conference Language	English and German with simultaneous translation to English

Poster Submission

Deadline poster abstracts October 31st 2006

Deadline paper concerning poster subject January 12th 2007

Industrial Exhibition

Date Conference accompanying March 28th - 29th 2007

Contact person: Dipl.-Ing. Florian Krull
Phone: +49 (0) 2 41 - 8 09 54 84
Email: amk@ivt.rwth-aachen.de

Registration

Registration and further information www.amk.rwth-aachen.de

Deadline "early bird" tariff September 30th 2006

Aachener Membran Kolloquium

Introduction

Having grown from a niche market into a booming business, membrane technology is already the state of the art technology in many fields like municipal water, waste or drinking water treatment. In addition, membrane technology in various industrial processes like filtration of dairy products, dealcoholisation of beverages or solvent recovery, has become essential. Membrane reactors, contactors and perovskite membranes represent new emerging fields of application.

Every two years the "Aachener Membran Kolloquium" (AMK) is organised by the Department of Chemical Engineering of RWTH Aachen University as forum for **industrial membrane applications** in Germany and Europe.

As an international conference the 11th AMK provides a platform where membrane developers, producers and customers meet.

In about 20 talks given by invited referees, mostly commercial industrial membrane applications and experience in operation thereof are presented and discussed.

Conference Venue and Date

Eurogress Aachen

Europasaal and Foyer
Monheimsallee 48
52062 Aachen
Germany

Date: March 28th - 29th 2007

Preregistration on March 27th 2007

at the Department of Chemical Engineering

www.ivt.rwth-aachen.de

Aachener Membran Kolloquium

Topics

Talks at the AMK will cover a wide range of classical as well as innovative membrane technology applications in

- Industrial process, waste and drinking water treatment,
- Food and beverage industry,
- Process industry and
- in Life Sciences.

The program of the plenary lectures will be available in December 2006 on www.amk.rwth-aachen.de.

Call for Posters

A poster exhibition on new subjects and results from membrane research will be presented along the conference. In the afternoon of the first conference day the poster exhibition will be opened and posters remain mounted during the whole conference.

Poster registration

You are very welcome to present a poster at the 11th AMK. Deadline for submission of poster abstracts is October 31st 2006.

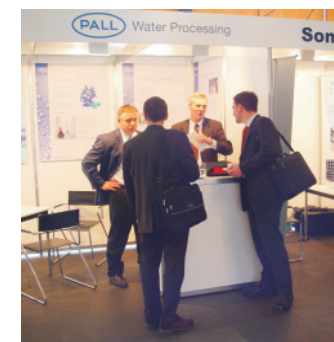

Further information on submission procedure and deadlines for poster abstracts can be found on www.amk.rwth-aachen.de

Aachener Membran Kolloquium

Industrial Exhibition

It is the special aim of the IVT to encourage an open discussion between developers, manufacturers and end-users of membrane technology.

To stimulate this discussion the 11th AMK features an industrial exhibition with exhibiting companies from all fields of membrane technology. Membrane and module manufacturers as well as engineering companies are given the opportunity to exhibit their products.

If you are interested in exhibiting at the 11th AMK please visit www.amk.rwth-aachen.de for further information.

Participation Fees

(Including Proceedings, Lunch and Conference Bag)

Regular participation fee € 560

Gala dinner on 1st day € 50

Discount participation fees:

VIVTA members / Sponsors € 460

Academia (incl. PhD students) € 330

Students € 150

"Poster" discount (except student tariff) € -50

"Early bird" discount (except student tariff) registration before September 30th 2006 € -50
